

We promote **spiritual** development by:

- ❑ Wondering at how technology works and what it can achieve, developing curiosity and a sense of awe in digital creation and innovation.
- ❑ Creating digital projects that express ideas and meaning, using creativity and communication to explore personal identity and purpose.
- ❑ Reflecting on the impact of technology, using critical thinking and commitment to consider ethical choices, wellbeing and the wider world.

We promote **moral** development by:

- ❑ Considering the ethical impact of technology, using curiosity and critical thinking to explore online safety, privacy and responsible digital choices.
- ❑ Collaborating respectfully in coding and digital projects, communicating clearly and showing integrity when sharing work and crediting others.
- ❑ Creating technology that supports others, using commitment and creativity to solve problems in ways that are fair and beneficial.

Personal Development in Computing at Trimley St Mary School

We promote **social** development by:

- ❑ Collaborating on coding and digital projects, developing communication and teamwork skills through shared problem-solving.
- ❑ Exploring how technology connects people and communities, using curiosity and critical thinking to understand its role in society.
- ❑ Supporting others through digital citizenship, showing commitment, respect and responsibility when using online tools and platforms

We promote **cultural** development by:

- ❑ Exploring digital tools and media from different cultures, developing curiosity and communicating respectfully about global perspectives.
- ❑ Creating multimedia projects inspired by cultural stories, traditions and art, collaborating creatively and valuing diverse viewpoints.
- ❑ Comparing how technology is used around the world, using critical thinking and commitment to appreciate cultural diversity in digital life.
