

# Year 3 Homework Grid

## Autumn 1

All children at Trimley St Mary will receive a homework grid each half term. The function of homework is; to give families a starting point for discussion about what has been learned in school and to give children an opportunity to consolidate and extend their understanding. Homework should not be a battle. Family life is busy and can be unpredictable and some activities will take more time than others. This grid gives you an opportunity to pick activities that suit the time you have available – please aim for one activity per week as a guide.

Daily reading and maths activities should continue be practised – please turn over for details. For the main homework activity each week, children should select a square of the grid to complete and return to school on a Friday. Children will be rewarded for each activity they complete.
